Recommendation letter for Mr. George Sherif Botros Ibrahim

Dear Madam/Sir,

with this letter, I would like to support Mr. Ibrahim's application for a master's program. Mr. Ibrahim carried out his bachelor thesis during an exchange semester at the Telecooperation Lab in the period from 01.03.2022 – 31.08.2022. Already during the selection process, Mr. Ibrahim demonstrated very good academic performance at the German University in Cairo, which prompted me to accept and host him at my lab for his bachelor studies.

Throughout his stay, Mr. Ibrahim worked in an active research area on a complex topic in the field of Human-Computer Interaction (HCI). Under indirect supervision from myself and direct supervision from a doctoral researcher in my group, Mr. Ibrahim showed an ability to grasp complex concepts at a very good rate. The results of his bachelor thesis contributed to a submission at the premier conference in HCI, the ACM CHI Conference on Human Factors in Computing Systems.

Mr. Ibrahim's bachelor thesis was graded with the highest possible mark. Given his very good performance both at his university and in the course of his visit at my lab, I am more than happy to recommend him as a **candidate with great potential** for your master's program.

Best regards,

Prof. Dr. Max Mühlhäuser
